

# In the Footsteps of Emmy Noether

Excursion: Guided Tour of the SUB Göttingen, 08.03.2017

*"In the judgment of the most competent living mathematicians, Fräulein Noether was the most significant creative mathematical genius thus far produced since the higher education of women began."*

*Albert Einstein - 1935*

Emmy Noether (1882 - 1935) was one of the leading mathematicians of her time. After heavy counter reactions she was finally allowed to habilitate at the University of Göttingen in 1919 - as the first woman in Germany. This guided library tour is all about her way to habilitation and will give insights in the bequests of different mathematicians related to her history.

Travel costs funded by the Young-Women-Initiative. Limited number of participants!  
Please register via e-mail until Friday, **03.03.2017**.

This event is organised by the Young-Women-Initiative.
